## 3 LEVELS OF SECURITY

Get the right fraud protection with 3 levels of security.

- *Essential Checks* – basic security features
- *Classic Checks* – traditional security for additional protection
- *Premier Checks* – the most security and highest level of safety

## COUNTLESS OPTIONS

- Dozens of color and background combinations
- Formats that work with nearly every accounting software
- Logos for preprinted checks
- Extra services such as automatic shipment scheduling, reverse numbering, special packaging and more

## QUICK TURNAROUND

# 3 Security Levels Deliver the Right Fraud Protection

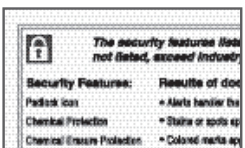

Choose **Essential**, **Classic** or **Premier** check stock for the level of fraud protection you need.

All check stock is constructed of high-quality, bank-recommended 24# paper. Most checks include a 1/2" clear zone and a target box for accurate MICR line placement.

FEATURE	GOOD	BETTER	BEST	
	ESSENTIAL CHECKS	CLASSIC CHECKS	PREMIER CHECKS	PRESSURE SEAL
Padlock Icon	✓	✓	✓

Chemical Protection		✓	✓	
Erasure Protection		✓	✓	
Fluorescent Fibers		✓	✓	
Thermochromatic Ink			✓	
Prismatic Pantograph			✓	
Warning Band				✓
Toner Adhesion			✓	

## CHECK SECURITY FEATURES EXPLAINED

**WARNING BOX**  
Area on the check back that lists the security features included for quick verification.

**VOID PANTOGRAPH**  
Displays when checks are photocopied or scanned on most machines.

**MICROPRINTING**  
Text is printed at 1/100 inch so it appears as a line, but can be verified with a magnifying glass. If scanned or photocopied, the line will look solid.

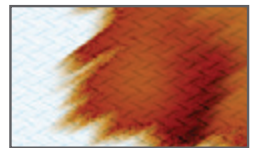

**ARTIFICIAL WATERMARK**  
A watermark image is printed on the paper and is visible when viewed at an angle.

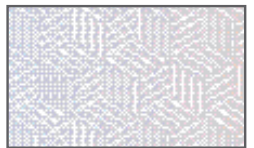

**TRUE WATERMARK**  
A true watermark is placed in the paper fibers at the time the paper is manufactured. View by holding up to a light source.

**FLUORESCENT FIBERS**  
Fibers embedded in the sheet are visible only under ultraviolet light.

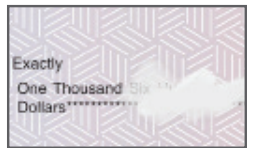

**CHEMICAL PROTECTION**  
Chemicals in the paper react when bleach or other solvents are used to change the check.

**PRISMATIC PANTOGRAPH**  
Checks are printed with graduated colors which are the most difficult types of checks to photocopy or scan.

**THERMOCHROMATIC INK**  
Heat sensitive ink block on back will fade and reappear when held between thumb and finger or breathed on.

**ERASURE PROTECTION**  
A protective treatment is applied during manufacturing. Attempts to alter check information by erasure produces a white mark in the background pattern.

**PADLOCK ICON**  
Alerts to security features listed on the back.

**ORIGINAL DOCUMENT BACKER**  
Light grey printing on the back disappears when photocopied.

**TONER ADHESION**  
Causes toner to bond permanently to paper. Attempts to remove information causes paper to tear.

# Checks Made for your Software

*If you're not sure which check you need, please call. We're happy to help!*

NOTE: **Checks listed in bold** are the most common formats. Call if yours is not listed - we can help!

**L81004P, L81013**, L81065  
Envelopes: E9156414, E9150814, E9150014, E91500S14

---

## Sage 500 ERP (formerly MAS 500)

Preprinted: L1313, L1317, L80138, L80139, **L81004, L81004P**,  
**L81013**, L81065  
Envelopes: CALL

---

## VERSA CHECK

### Gold, Platinum, Silver

Blank Check: Top, perfs: 3<sup>1</sup>/<sub>2</sub>", 7" (10<sup>1</sup>/<sub>2</sub>" optional)  
Bottom, perfs: 4", 7<sup>1</sup>/<sub>2</sub>"  
3up Business, perfs: 3<sup>1</sup>/<sub>2</sub>", 7", 10<sup>1</sup>/<sub>2</sub>"  
Envelopes: 6861, 6861S

---

**Note:** Some blank checks have an additional 10<sup>1</sup>/<sub>2</sub>" perf to allow for easy placement in envelope.

*All brand names are the property of their respective companies. This list is not exhaustive. Call for checks compatible with ANY software not shown here.*

# Blank Check Stock Streamlines Printing & Increases Security

Use the same stock for all accounts and store bank information securely in your computer, not on preprinted checks

## EASY ORDERING

### 1| Choose the right level of security

- Essential Security (Good) p. 5
- Classic Security (Better) p. 6
- Premier Security (Best) p. 7

### 2| Find your perforation positions

Line up a current check with the top of the guide on p. 4 and determine perforation positions.

### 3| Select a background pantograph and color from those shown

## Essential Security GOOD

Ideal for businesses with a low risk of fraud

Basic security checks that meet all bank guidelines at an economical price.

- Padlock Icon
- Warning Box
- VOID pantograph (except lattice)
- Security Screen
- Artificial watermark
- Microprinting

Minimum quantity 500 checks

# Premier Security

## BEST

*Ideal for businesses that need to drastically limit any opportunity for check fraud*

Top-of-the-line security checks have the highest level of fraud protection.

Premier checks have “classic” security features, plus:

- True watermark
- Either Prismatic pantograph or Thermo-chromatic ink
- Toner adhesion

Minimum quantity 500 checks.

All Premier Security checks include colored stubs.

### Also Available

IRD Stock for Check 21 Compliant “Image Replacement Documents”

>> QUICK TURNAROUND

>> SOFTWARE COMPATIBILITY  
Checks for most accounting packages—call if yours isn't listed on p. 4

**ENVELOPES**  
ON PAGE 12

# Preprinted Checks Deliver Reliability & Efficiency

*Software-compatible checks are ready to quickly print your check data*

## EASY ORDERING

### 1| Select your check format

Start with the software compatibility chart on p. 4 to find the format that works for you. This is critical for proper data alignment when printing. Call us with any compatibility questions.

### 2| Select your security check paper stock, p. 10

Choose the color, background pantograph and security level that's right for you.

### 3| Add your bank and check data, p. 11

Have an existing check available to make ordering easier.

**SOFTWARE COMPATIBILITY** Refer to the chart on page 4 for compatibility with popular software. Call us if you don't see the software you are using.

## STEP 1

# Select Preprinted Check Format

- Our most popular formats are shown here, but we have hundreds more.
- Most checks can be ordered with 1 or 2 signature lines.

## STEP 2

## Select Preprinted Check Stock

The preprinted check formats on pp. 8-9 are available in the colors and background patterns shown below (unless noted). Various security features are available based on the level of fraud protection you choose.

**SECURITY FEATURES**  
DETAILS ON PAGE 3

### Essential Security **GOOD**

*Ideal for businesses with a low risk of fraud*

“Essential” security checks meet all bank guidelines at an economical price.

- Padlock Icon
- Warning Box
- VOID pantograph
- Security screen
- Artificial watermark
- Microprinting

Minimum quantity 250 checks

\*Bottom check formats not available in these colors.

\*\*Lattice checks do not include a VOID pantograph.

### Classic Security **BETTER**

*Ideal for businesses that want the extra protection with checks that are hard to replicate or manipulate*

“Classic” security checks deliver more protection from fraud.

They have “essential” security features, plus:

- Chemical protection
- Erasure protection
- Fluorescent fibers

Minimum quantity 250 checks

\* Herringbone checks do not have a VOID pantograph.

\*\*Not available for 3up checks.

### Premier Security **BEST**

*Ideal for businesses that need to drastically limit any opportunity for check fraud*

Top-of-the-line security checks have the highest level of fraud protection.

Premier checks have “classic” security features, plus:

- True watermark
- Either Prismatic pantograph or Thermochromatic ink
- Toner adhesion

Minimum quantity 250 checks

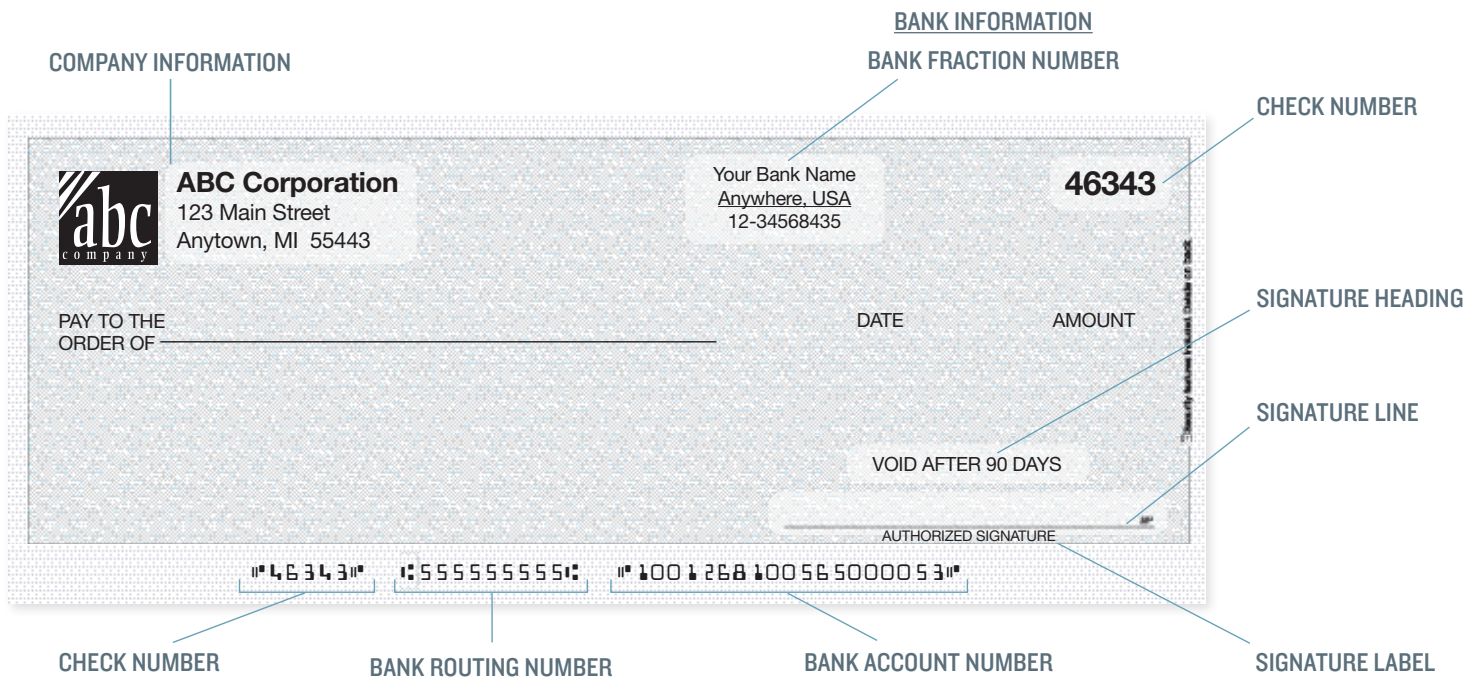

All premier checks have colored stubs.

**Note:** Not all backgrounds or color options are available for every printed check format. Call for details.

## STEP 3

# Add Check and Bank Data

Have an existing check available to make ordering easier. Refer to it, and the diagram below, to ensure data accuracy. If you'd prefer, simply send us a current, voided check and we'll match it for you.

## MICR Toner Cartridges

MICR (Magnetic Ink Character Recognition) toner ensures that your checks will be accepted and processed quickly by any bank. These remanufactured cartridges are for HP-compatible printers and are fully tested before shipping.

Item #	HP Printer Model	Page Yield
MICR413	HP 4, 4M, 4+, 4M+, 5, 5M, 5N, 5SE	6000
MICR2035	HP 2035	2300
MICR2055	HP 2055	6500
MICR3005	HP 3005	6500
MICR4350	HP 4250, 4350	20000
MICR120013	HP 1200, 1220, 3300, 3380	3500
MICR132013	HP 1320, 3390, 3392	6000
MICR210013	HP 2100, 2200	6000
MICR400013	HP 4000, 4050	6000
MICR420013	HP 4200	12000

## Deposit Slips

Blank or preprinted deposit slips make banking more convenient. 8½" x 11". Call for details.

Blank - **80707**

Preprinted - **8108911W** (shown)  
Perforation at 3½"

**80705** (shown)  
Perforations at 3½" & 7"

**80701**  
Perforations at 3⅔" & 7⅓"

# Efficiently Process a Large Volume of Checks with Pressure Seal

## PRESSURE SEAL CHECKS

Print checks on special blank security stock that has glue along the edges. Then, fold and seal the check with pressure seal equipment for easy mailing. Pressure seal checks are best for a large volume of checks for multiple accounts. It is critical to ensure compatibility with your accounting software (so data prints in the right locations), and pressure seal equipment (so the glue pattern aligns for proper sealing). **Request free samples!**

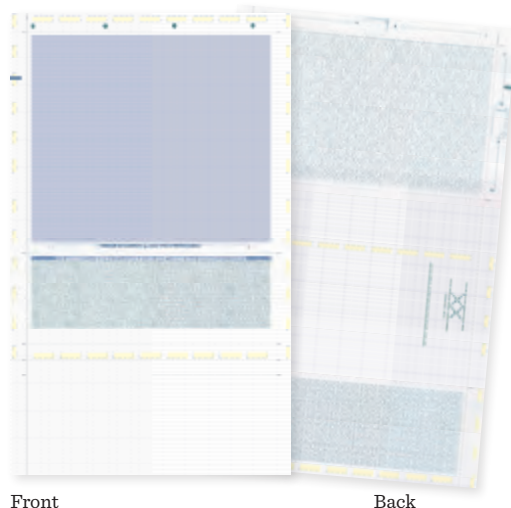

**Minimum quantity 500.**

### PRESSURE SEAL CHECKS

Item #	Size	Fold Type	Background Style	Check Color	Stub Color
80348	8½" x 11"	Z	Flat	Green	Blue
80480	8½" x 11"	Z	Flat	Blue	Blue
80494	8½" x 11"	Z	Flat	Green	Green
80495	8½" x 11"	Z	Flat	Burgundy	Burgundy
